### PROFILE

I am Jureen Rivero Altoveros, an Information Technology graduate passionate about web development. I am seeking a job opportunity to enhance my programming skills or gain hands-on experience in various IT services. I am dedicated to exploring emerging trends in the technology field to become a versatile professional.

### EDUCATION

- |  |             |
|--|-------------|
| <b>Bachelor of Science in Information Technology</b> | 2021 - 2025 |
| City College of Calamba                              |             |
| <b>Senior High School</b>                            | 2019 - 2021 |
| Calamba Integrated School                            |             |
| <b>GWA:</b> 94                                       |             |

### EXPERIENCE

- |  |                     |
|--|---------------------|
| <b>Student Intern at VAREX IMAGING</b>   | DEC 2024 - MAY 2025 |
| Processing transaction related to closing product orders, non-issued materials, and parts replacements using SAP system. I specifically utilized MIGO - Goods Issue, along with other relevant functions, to update and manage the status of non-issued materials and ensure that all product orders were properly closed in the system. |                     |

### ACADEMIC PROJECTS

- |  |                     |
|--|---------------------|
| <b>CCC alumLinked</b>  | JAN 2025 - PRESENT  |
| A Web-based Alumni Information Management System developed for City College of Calamba. It is designed to efficiently manage and monitor alumni data, including user personal profiles, work experience, education background, and skills.   |                     |
| <b>Online Ordering System with CRM</b>   | APR 2024 - NOV 2024 |
| The Web-based Online Ordering System, integrated with CRM for a hardware store, optimizes order processing and enhances customer engagement. It features role-based access for customers, system administrators, cashiers, stockmen, and managers to improve overall satisfaction. |                     |
